Edit Location

The app should fetch your location automatically and display it on the map. If it doesn't, go to the Settings app and tap Privacy to enable Location Services for iNaturalist

---

Upload to share with the community. This should happen automatically. If it doesn't, tap the Upload button. You can turn off automatic upload from the app settings from the Me tab.

➡ ☁ Upload

Check back for **activity** on your observation from the community or be notified by email to the address in your account settings.
