ADVISORY COUNCIL

| | | |
|-------------------------------------|-----|----------------------|
| Dr. and Mrs. C.B. Church | | 267-2233 267-1842 |
| Dr. Al Hoffman | (S) | 722-9026 267-4884 |
| Mr. William Schriever | (S) | 746-8040 |
| Mr. Donald Hill | (L) | 731-0943 267-3869 |
| Mr. Charles Robertson | (L) | 733-3379 267-2466 |
| Mr. Hans Pokorny | | 267-1626 |
| Mr. Basil Hutchinson | | 267-4808 267-4685 |

Standing committees: Science(S), Legal (L).

TESTING ASSISTANCE

Jo Mott, Herman Schultz, H. Hollingsworth, Erin Kenny and others.

HERO IN OUR MIDST Ken Carson, who lives on the north shore road above area 9, moved quickly one day in Perth a month ago to save a little girl's life. He dashed into a street parade to snatch the injured child from under the wheels of a runaway car, and then got her to hospital in time. Congratulations, Ken!

BIG LIGHTS OF THE ANNUAL MEETING WATER levels received the biggest share of time, and Hans von Rosen fielded many questions about the regime to get the lake flushed out by means of allowing a more natural rise and fall with the seasons. Many residents came to praise the lower summer levels; and others appeared content with the explanations they received. The regime will continue. More volunteers are needed to help Mark Semple in occasional bouts of clearing logs in Jebb's Creek. Alex Campbell reported "no significant change" in the bacterial readings for 1981, although clarity was below 4 meters. Treasurer Art Eastham said that we are still solvent, in spite of retaining the low \$5 fee. President Code reported moderate progress in amendments to the Tay Valley Area Official Plan, and in other issues. Reeves Ferrier and Healey were welcomed and heard, and Deputy Reeve McParland. The meeting broke up happily and in good time for lunch, after re-electing most of the executive. We said "goodbye and thanks" to Ruth Turner and Keith Fraser, who both have worked hard and well for Otty Lake. Others who have stepped down more recently are: Ron Wedgewood, Jeff King, Jack Wotton and Harry Foley. Thanks for all your good work.

AREA VISITS - FEES Most areas received a visit this year from a Counsellor bearing literature, who also collected the annual fee. Those who were missed (and this goes for Area 8 in particular) can mail their fees to the Treasurer Art Eastham at 265 Crestview Road, Ottawa K1H 5G4. Tell Art if you want the literature you missed and can't wait for spring.

HELP WANTED

As you can see, on page one, we have a few vacancies. If you would like to help out, give us a call and indicate your area of interest. No reasonable offer refused!

SOILS FOR TILE BEDS

Some soils are more effective than others, in trapping phosphate nutrients so that those nutrients will not find their way into the lake and create algae growth. In a later issue we will tell you where you can find the best soils.

REGATTA THRILLS

The great, annual Otty Lake Sailing Regatta took place this year on September 4, and spectators reported it was the most exciting yet. With high winds howling, it was anybody's guess who would tip next and who would survive to the finish. The Ones who did not tip, who made it to the finish line to score under our handicap system were:

HERB ROBERTSON, first, and winner of the Commodore's Trophy, sailing his reconditioned Albacore; Dave Code, second, in his Laser; and Jack Watt, third, in a Kestrel. The others got an "I Tried" ribbon and the sympathy of the judges.

LIBRARY CONTRIBUTION

As reported at the Annual Meeting, your executive decided to respond to the appeal of the Perth Library to make a contribution to help re-stock the library in its new quarters. Many residents, both seasonal and year-round, are happy users of this library. With the advice of the librarians and Amy Pokorny, the following books have been chosen:

The McGraw-Hill Encyclopaedia of Environmental Science
Freshwater Ecology
Terrestrial Ecology
Environmental Pollution

The Encyclopaedia is a very impressive book, and we recommend it highly to our members. We expect the official presentation to be made soon.

MUNICIPAL ELECTIONS

This is an election year, and this time all across Ontario those elected will serve for three years. The Otty Lake Association has for many years encouraged its members to exercise their franchise. Remember: we get the government we deserve.

★ After a disappointing loss at the polls last time, HANS POKORNY has decided to run again for the Council in North Burgess. The best way you can thank him for his many good efforts on our behalf in the past is to vote for him this time (no matter what the weather!)

Advance Poll at Stanleyville Sat. Oct. 30 9:00am to 8:00pm
Final Voting at Stanleyville Mon. Nov. 8 9:00am to 8:00pm

There will be other candidates as well, but they were not known as we went to press.

North Elmsley residents, seasonal and year-round, are also urged to turn out to vote. Go to Port Elmsley, the same days.

FROG STILL AT LARGE

It seems the editorial staff of the Fredericton Gleaner has become aware of our giant Otty Lake frog, and has issued a challenge, comparing it to the famous Coleman frog that grew to 42 pounds, and is now stuffed and displayed in the York-Sunbury museum. More about it in the next issue.

BUILDING PERMITS

Remember that we published a description of the rules regarding building permits, in the 1982-1 issue of March, 1982? These rules are to protect us and our lake. Unfortunately, some persons are still not conscientious enough. In September a resident of area 2 was building a large cottage on a small lot, in breach of several requirements of the Zoning By-law and without getting a permit. We find it disappointing that anyone would treat his neighbours in this fashion. The case is still before the Council, and a decision is expected soon. Anyone knowing of such cases should report them as soon as possible, before the building is far advanced, to any member of the executive or to the Building Inspector. In North Burgess, call Jim Connell at 267 4605. In North Elmsley call Geo. Coutts at 283 4461.

Don't be shy about this. Remember, honest people have been respecting the laws and their neighbours for many years!

T-SHIRTS A few are left. Call Dave Code at 722 0339.
